

HYST Mentor™

TURP Mentor™

Flexible, cost-effective solutions suitable for various settings

- Height adjustable platform
- Monitors for simulation control and the procedural view
- Haptic system with 4 degrees-of-freedom

ADAPTED ORIGINAL RESECTOSCOPE

- Fully extractable
- In and outlet valves for fluid handling
- 0° 12° and 30° virtual cameras
- Working element for electro-surgery

Educational Features

HANDS-ON SIMULATION TRAINING

Practice basic tasks to complete procedures in various techniques at a range of difficulty levels.

HANDS-ON COMPLICATION TRAINING

Perform a safe and effective procedure while efficiently managing bleeding and complications.

DIDACTIC EXPERT TUTORIALS

Introduce and explain “best practice” in core procedural techniques.

MASTERING INSTRUMENTS

Work with original scopes: diagnostic hysteroscope with angled optics, loop electrode, laser fiber, scissors, graspers and more.

Combined platform for the hands-on practice of hysteroscopy, transurethral resection of the prostate (TURP), transurethral resection of bladder tumors (TURB) and laser BPH treatment.

HYST Mentor - Comprehensive Hysteroscopy Curriculum

Only Symbionix products provide a complete Women's Health Training Curriculum including simulators for Robotic Surgery, Laparoscopy, Ultrasound, Pelvic Exams and Diagnostic and Therapeutic Hysteroscopy.

Essential Skills

Rollerball Endometrial Ablation

Diagnostic Hysteroscopy

Advanced Resection

Polypectomy

Essure

Myomectomy

Morcellation

TURP Mentor - Comprehensive Training for TURP, TURB and BPH Treatment

Only Symbionix products offer a complete Urology Training Curriculum including simulators for Robotic Surgery, Laparoscopy, Endourology, TURP, Laser BPH and TURB.

TURP Basic Skills

Laser BPH

TURP Procedures

TURB

"HYST Mentor allows our residents and fellows to improve their skills in hysteroscopic basics procedures as well as more advanced procedures such as synechiae or septa procedures. I really think that a such simulator is very useful in a teaching university hospital."

Dr. Guillaume Legendre
Department of Obstetrics and Gynecology
Angers University Hospital, Angers, France

"TURP Mentor offers urology surgeons extremely realistic hands-on training with a wide range of prostate anatomies, pathologies and operative complications. Surgeons can practice the procedure to perfection without risking the patient, after which they can transfer this experience to the OR."

PD Dr. med. Michael Müntener
Head Physician Urology
University Hospital Zurich

MentorLearn Simulator Curricula Management System

3D SYSTEMS' MULTIDISCIPLINARY SIMULATORS EFFORTLESSLY INTEGRATE INTO YOUR PROGRAM CURRICULUM.

MYOMECTOMY	0 / 100	0 %
Score	Adapted	Goal
Removed pathology	0 / 100	47 % >95 %
SAFETY	78 / 80	97 %
Score	Adapted	Goal
Tool active without contact	18 / 20	9 % < 5 %
Tool active when pushing	20 / 20	0
Cervix contacts	20 / 20	0 < 1
Cavity contacts	20 / 20	0 < 1
ECONOMY	76 / 80	95 %
Score	Adapted	Goal
Procedure time	40 / 40	131 s < 240 s
Cumulative path length	30 / 30	576 mm < 900 mm
Camera alignment	6 / 10	90 % > 90 %
VISUALIZATION	55 / 60	92 %
Score	Adapted	Goal
Uterine cavity	30 / 30	91 % > 85 %
Left ostium	0 / 5	0 s > 1 s
Right ostium	5 / 5	8 s > 1 s
FLUID HANDLING	40 / 40	100 %
Score	Adapted	Goal
Time view obscured	20 / 20	0 s < 30 s
Time uterus collapsed	10 / 10	2 s < 15 s
Distension media used	10 / 10	913 ml < 1000 ml
User: Minter Date: 2013-9-25, 11:53 Case: Myomectomy, Mullum 1		

- Customizable curriculum incorporating training and didactics.
- Easy and efficient administration of simulator users.
- Online learning courses and video-based content.
- Proficiency based hands-on training.
- Performance reports with learning curve graphs.
- Recorded videos of the simulation sessions for debriefing.

Healthcare Solutions

3D Systems is a pioneer for healthcare solutions that improve outcomes which benefit both patients and surgeons. Our global team works with customers to help navigate technologies and provide support for surgical planning, training, device design, personalized medical technologies and 3D printing. We are dedicated to helping medical professionals train for, plan and practice complex medical procedures to achieve better patient outcomes.
